

Do you have friends, neighbors, or family members who have had a heart attack, stroke or vascular disease?

Are they 45 years old or older and have high cholesterol?

IF SO...

They may qualify for the National Institute's of Health's
AIM HIGH Project

All eligible participants will receive at *no cost*:

Cholesterol medications (Zocor and possibly Niaspan and Zetia),
Cardiac risk factor education and thorough follow-up!

**Please Call Mariellen at St. Vincent Charity Hospital's
Lipid Research Center/Cardiac Prevention Center
for more information. 216.363.2732**
