

Are You Planning on Becoming Pregnant Within the Next Year?

Would you like to know how your diet and metabolism affects the size, weight, and possible long-term growth of your baby?

If so, Dr. Patrick Catalano is conducting a study at MetroHealth Medical Center, funded by the National Institutes of Health, to help answer these questions.

If you are planning a pregnancy or would like more information, please call:

**Larraine Presley, at (216) 778-8927 or
Patrick Catalano, MD, at (216) 778-7341**

All studies will be conducted at the General Clinical Research Center at MetroHealth Medical Center. All volunteers will be compensated for their time.
